**WATER DAMAGE TO SCHOOL HALL** – on Sunday, July 14 the flooring of the school hall suffered extensive water damage from the heavy rain, which came in from the kitchen side and partially flooded the hall. There was so much rain that the drains would hold not the water, and there was considerable run off everywhere. We are waiting for Catholic Mutual Insurance Company to respond to the damage claim. Our Advisory Board met on August 13 and came up with the solution to demolish the present floor and to pour a concrete floor. The insurance adjuster would not consider damage to the floor that was previous to the flood and was not covered by insurance. The Advisory Board thought that this solution was the most cost effective one.
